STATINTL

Dear Gene:

STATINTL

Happy New Year. I just talked to [REDACTED] who will be returning home after his short stay down South. He asked several questions in your behalf; and, at the time, I answered them as appropriate. We have received a number of pieces of mail from you and have distributed them along the lines you suggested. Under separate cover I will send back some comments which were solicited on the items you sent. Incidentally, I appreciated your Christmas card and certainly would like to look forward to seeing you in [REDACTED] during '67.

STATINTL

Sometime after you left Washington a package arrived from Connecticut addressed to you in care of my name. I gave this to [REDACTED] who will bring it back with him.

STATINTL

I am sending over a newspaper clipping which one of Bob C. 's boys has asked that I forward to you for some additional information. This should be reaching you in a couple of days. Anything you can do to expedite an answer will be appreciated by them particularly. As you recall, they are still simmering over the other request which has been many months in the mail.

Will write to you in the next few days through other channels. Also expect to have a reply on that proposed February visitor which you mentioned.

Best wishes to you and Ann.

Sincerely,

STATINTL
